Work Experience

New Publix Pharmacy (College Chowk, Sahiwal)

Pharmacy Technician | 14 months

- Accurately filled 50–70 prescriptions daily while verifying correct dosage, medication, and patient information under pharmacist supervision.
- Processed insurance claims and third-party billing, resolving rejections and reducing patient wait times for approvals.
- Managed daily inventory control including receiving orders, checking expiry dates, and restocking fast-moving medications to prevent shortages.

Makkah Medicos (Harappa Station)

Pharmacy Technician | 11 months

- Assisted 200+ customers weekly with prescription pickups, refill requests, and over-the-counter medication guidance within legal scope.
- Maintained controlled substance logs and ensured compliance with pharmacy laws and documentation requirements.
- Operated pharmacy software for data entry, label printing, and prescription tracking, reducing entry errors by organizing high-volume workflow.
